

INVITES YOU TO:

Linking Oral Microbes
to Systemic Health
Through Salivary
Diagnostics

HANDS ON WORKSHOP
2 CES

REGISTRATION:

ABOUT THE SPEAKER

Jennifer Seider, RDH, is the CEO of *MicrobeLinkDx*®. A pioneer in salivary diagnostics since 2005, Jennifer has worked extensively with DNA-PCR technology to help dental professionals identify pathogenic activity at the base of periodontal infections. She is passionate about bridging the oral-systemic connection and empowering dental teams with practical protocols that improve both oral and overall health outcomes. Jennifer is also the co-creator of *Boots, Bugs & Biofilm*™, a clinical training event designed to elevate communication skills and treatment confidence for dental teams.

You'll Learn How To:

- ✓ Identify the pathogens that drive periodontal & systemic disease
- ✓ Collect samples with confidence using simple paper points
- ✓ Interpret easy-to-read reports and integrate testing into protocols
- ✓ Communicate results in patient-friendly language
- ✓ Enhance outcomes with adjunctive therapies

- **Students: Free**
- **Members: \$25**
- **Non-members: \$35**

WHERE

185 Anchor Rd.
Casselberry, FL 32707

November 7 2025-Friday

2:00 PM – 4:00 PM
