1. Unlocking Case Acceptance: Bugs, Scripts, and Team Magic

Get ready for a full-team adventure into the world of case acceptance! We're mixing it up with Jennifer Seider from MicrobelinkDX to show you how understanding those tiny "bugs" in your patients' mouths can turn maybes into absolutely yeses. And that's not all—you'll leave with fresh, plug-and-play scripts that make the whole process a breeze for your entire team. *(Feb 13, 2026) 4-CEs*

2. Beyond Maintenance – Elevating Implant and Hybrid Care

Most implants fail for the same reason natural teeth do: pathogenic bacteria. Explore how to confirm a site is truly healthy before placement, support the microbiome after, and sustain long-term success. *(June 12, 2026) 4-CEs*

3. Wildcard Session – It's up to you!

A final session shaped by you. Dive deeper into the topics that matter most—from biofilm interpretation to communication mastery—based on feedback from the series. *(Sept 18, 2026) 4-CEs*
