

# Boots BUGS & BIOFILM

April 17-18, 2026  
NASHVILLE, TN

## THE EVENT

**Boots, Bugs & Biofilm**  
*Ultimate Team Edition-Nashville*

Join us in Nashville for the Ultimate Perio Party. A two-day CE experience for the entire dental team focused on practical, science-driven periodontal and implant strategies you can implement immediately. 12 Live CE Credits. Systems. Confidence. Results.

## WHAT YOU'LL LEARN

- New for 2026: Implant protection and peri-implant disease protocols to support long-term success
- Oral-systemic connections linking pathogens to heart, brain, pregnancy, and diabetes
- Verbal skills that boost patient understanding and case acceptance.
- Bacterial testing integration targeted, data-driven.
- Microscopic insight into the biofilm driving infection and inflammation
- Real case examples to strengthen team alignment and implementation.

★ Featuring the Ultimate Team Edition  
(Bring your dental team)

# Event Topics

\*This is only a short list of the topics that will be covered.

## PERIODONTAL PROTOCOLS

- Utilizing our ready to use **Precision Periodontal Therapy** protocols.
- Periodontal treatment protocols, workflows, follow-up, and recare.
  - Scheduling and timing for each visit.
- Impact of salivary diagnostics on changing SRP.
- Benefits of a hygiene microscope.
- Influence of photos, microscope, or salivary testing on insurance reimbursement.
- Considerations for antibiotics and periodontal disease.

## INSURANCE & CODING

- Insurance coding for BBB's easy-to-implement **Precision Periodontal** protocols.
- Insurance coding for treating mucositis & peri-implantitis.
- Proper coding for laser treatment.
- Usage of code D4355 and its applicability to same day exams.

## MOUTH-BODY CONNECTION

- Communicating poor oral health's impact on overall health.
- The benefits of periodontal treatment on systemic health.
- Safe timing for hygiene visits after a cardiac event.
- Treating patients during chemotherapy and radiation.
- Determining when to collaborate and communicate with medical providers about periodontitis. (we have templates)
- Criteria for dentists before signing a dental clearance form.

## BLEEDING GUMS

- Treatment protocols for bleeding gums with minimal build-up.
- Insights into managing post-SRP bleeding in some patients.
- Recommendations for treating bleeding around implants?
- Exploring considerations for SRP in patients with "stable" pockets, no BOP, and light bleeding with scaling.

## CASE CLOSING VERBAL SKILLS

- Elevating the delivery of treatment and financial arrangements with patients.
- Effective verbal skills & scripts to expedite patient agreement.
- Common mistakes when presenting treatment plans.
